*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Financial),—dated 29th October 1891.*

No. 8187-94—L. 648, DATED BANGALORE, 29TH OCTOBER 1891.

ORDER.—Several of the members of the Representative Assembly have brought to the notice of Government that the sanitation of rural parts is much neglected and that some special arrangements are necessary. The Government are considering the desirability of framing a law for grouping populous villages into unions and establishing Panchayets or committees for looking after their sanitation. Meanwhile the Deputy Commissioners should understand that where it is urgently required, the District Committees are at liberty to set apart a portion of their District Funds for the sanitation of rural parts such as cleaning the streets, removing prickly-pear in the vicinity of villages, digging wells for good drinking water, and so forth. Expenditure of money for such purposes is more important and is likely to be better appreciated than the formation of new roads. The Deputy Commissioners are therefore requested to pay particular attention to this point in submitting their Budgets of District Funds for 1892-93.

A. SRINIVASACHARLU,
Under-Secretary.

To—The Deputy Commissioners of Districts.
